Dear Bill,

I'm sorry to bother you, but I saw that Rusty is out. Can you help? The Navy has a standard of responding to reporters or public in 14 days. They sometimes give Vague answers.

Enrique wants us to make recommendations to the Navy on standards for best practices. Could you help with suggesting what we would consider to be standards for responsiveness?

See p8 re media. Would you like to add recommendations about timing of response, answering the question directly and with details, and anything else? Can you cite any documentation about best practices in the field?
